FEATURED CASE STUDY

OSV Group

Unifying seven businesses into one ERP platform

- Seven diverse businesses across Saint Vincent and the Grenadines merged into OSV Group.
- Deep-dive analysis packs and discovery sessions with each business.
- Data harmonised from different formats into one central ERP solution.
- Global team coordinated go-live, on-site training, and side-by-side support.

osv.com.vc

AI CASE STUDY

AI Product Content at Scale

sapphirepackaging.com · everymat.com

- Two e-commerce sites (Magento & Shopify) with hundreds to thousands of product listings.
- AI task runs on our in-house platform researched each product page individually.
- Detailed descriptions and copywriting grounded in existing product data.
- Result: SEO optimisation, improved rankings, more traffic, and higher buyer confidence.

AI Solutions

Enterprise AI Platform & ERP development

- **AI Lead Generation** — researched and qualified prospect batches.
- **AI call answering** — customer service automation.
- **AI website build & expansion** — large-scale content enrichment.
- **Custom AI workflows** — integrated with ERP, CRM, and business processes.

Project Experience

Many projects remain confidential under NDA

-
- Systems integration & ERP migration
 - Server migration & new systems development
 - Reporting solutions, dashboards & CRM/ERP add-ons
 - On-site go-live support, training, and process design
